DETAILED ACTION

Applicant's amendment of claims 2, 6-9, 14, 17, 20, 37 and 71 and the cancellation of claim 1, in the paper of, 4/17/2006, is acknowledged.

Applicants' arguments filed on 4/17/2006 have been fully considered and are deemed to be persuasive to overcome some of the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 2, 6-9, 14, 17, 20, 37-40, 69 and 71-75 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The rejection was stated in the previous office action. In response to this rejection applicants have cancelled claim 1, amended claims 2, 6-9, 14, 17, 20, 37 and 71 and traverse the rejection as it applies to the newly amended claims.

In response to the rejection applicants traverse on the basis that applicants support for Pol I Tne DNA polymerase double mutants comprising either Arg722 and Lys726 or at Arg722 and Phe730 is found throughout the specification, including the table on page 21, example 14 on page 46 and example 17 on page 17.

Applicants complete argument is acknowledged and has been carefully considered, however, is not found persuasive on the basis that applicants pointed to support for the claimed genus of mutations are not supported by the recited species (i.e. Phe730 is not supported by applicants recited species of F730A and F730Y).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
